Bamboo Powder – Body

1 Product and company identification.

PRODUCT NAME: EXFOLIANCE BAMBOO – BODY APPLICATION

2 Composition /information on ingredients

PREPARATION:

Chemical nature:	Components	CAS	EINECS	JAPAN
	Bambusa arundinacea stem powder		/ /	/

Hazardous constituents:

3 Hazards identification

MOST IMPORTANT HAZARDS: Risk of allergy by inhalation for people at risk

Classification/Specific hazards: none

4 First-aid measures

Inhalation: Not considered as particularly dangerous in normal use conditions

Skin contact: Rinse with plenty of water and soap.

Eye contact: Rinse with plenty of water during 15 minutes minimum. Consult a doctor if necessary.

Ingestion: Consult a doctor if necessary, show him this sheet. Failing this, show him the packaging or label.

Protection of first-aiders: none

5 Fire - fighting measures

Extinguishing media:

Suitable: Foam

Not suitable: /

Specific hazards: /

6 Accidental release measures

Personal precautions: Mask protecting from dust, gloves, goggles

Environmental precautions: Do not release in streams.

Recovery: Collect mechanically (aspiration). Wash with water.

7 Handling and storage

HANDLING

Technical measures: Protect from heat, light, and microbial contamination.

STORAGE

Storage conditions: Between 10 and 25°C, in original sealed packaging, in a dry and dark place.

Incompatible products: none

8 Exposure controls /personal protection

Personal protective equipment: Wear a mask protecting from dust

- Hand protection: Wear chemical gloves.

- Eye protection: Wear safety glasses.

9 Physical and chemical properties

APPEARANCE:

- Physical state: Powder

- Color: White

Specific temperatures:

- Melting: No data available

- Boiling: Non applicable

Flammability characteristics:

- Flash point: No data available

- Auto-ignition temperature: No data available

Density /

Solubility:

- in water: No soluble in water

- in organic solvents: No soluble in alcohols

- in oils No soluble in oils

pH

Further information:

10 Stability and reactivity

Conditions to avoid: Stable under normal conditions of use. Do not teeter close to a heat source

Materials to avoid: None

Hazardous decomposition products: Thermal decomposition can produce CO or toxic vapors

11 Toxicological information

Acute toxicity: No data available

Skin tolerance No data available

Eye tolerance No data available

Skin sensitization No data available

12 Ecological information

Biodegradability : Biodegradable product. Do not release large quantities in the environment

13 Disposal considerations

WASTE FROM RESIDUES:

Destruction/Disposal: Dispose in accordance with relevant local regulation
