Special protective Equipment and firefighting procedures:	Firefighters should wear self-contained breathing apparatus with a full face-piece in the positive pressure demand mode with appropriate turn-out gear and chemical resistant PPE. Structural firefighter's protective clothing will only provide limited protection. Water or foam may cause frothing which can be violent and possible endanger the life of the fire fighter. Water may be used to keep fire-exposed containers cool until fire is out.
Unusual Fire & Explosion:	Toxic fumes when combustion or in high temperatures occur.

6 - Accidental Release Measures

Personal Precautions:	No danger almost exists as adding agents of detergents. Wash off in clean water. Use approved dust mask if dust levels are irritating.
Spills / Leaks:	Use with adequate ventilation. Collect spill for later disposal. Prevent entry into waterway and sewers. Collect as much as possible in a clean container for reuse or disposal.
