

1 - Identification

Product Name Optiphen Plus

Product Number

Address Ingredients To Die For, 155 Blue Drive, Searcy, AR 72143

Phone 512-535-2711

Emergency Phone 800-633-8253; 801-629-0667

2 - Hazard(s) Identification

Classification of the substance or mixture

GHS classification in accordance with:

OSHA (29 CFR 1910.1200)

Eye damage/irritation, Cat. 2A

GHS label elements, including precautionary statements

Pictogram

Hazard statement(s) H319

H319 Causes serious eye irritation

Precautionary statement(s) P264

P264 Wash thoroughly after handling.
P280 Wear eye protection/face protection.

P305+P351+P338

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses if present and easy

to do. Continue rinsing.

P337+P313 If eye irritation persists: Get medical attention/advice.

3 - Composition/Information on Ingredients

Mixtures

Hazardous components

1. 2-Phenoxyethanol

 Concentration
 52.25% (weight)

 EC No.
 204-589-7

 CAS No.
 122-99-6

 Index No.
 603-098-00-9

Acute toxicity, oral, Cat. 4

Serious eye damage/eye irritation, Cat. 2

2. 1,2-Octanediol

 Concentration
 41.73% (weight)

 EC No.
 214-254-7

 CAS No.
 1117-86-8

Sorbic Acid

Concentration 6% (weight)
CAS No. 110-44-1

4 - First-Aid Measures

Description of necessary first-aid measures

Move out of dangerous area. Show this safety data sheet to the doctor in attendance. Do not leave the General advice

victim unattended.

If breathed in, move person into fresh air. If unconscious place in recovery position and seek medical If inhaled

advice. If symptoms persist, call a physician.

Remove contaminated clothing. If irritation develops, get medical attention. If on skin, rinse well with In case of skin contact

water. Wash contaminated clothing before re-use.

In case of eye contact Immediately flush eye(s) with plenty of water. Remove contact lenses.

Call a POISON CENTER or doctor/physician if you feel unwell. Do not give milk or alcoholic beverages.

Never give anything by mouth to an unconscious person. If symptoms persist, call a physician.

5 - Fire-Fighting Measures

Suitable extinguishing media

Water spray, Foam, Carbon Dioxide (CO2), Dry chemical. Do not use high volume water jet.

Specific hazards arising from the chemica Do not allow run-off from fire-fighting to enter drains or water courses.

Special protective actions for fire-fighters

If product is heated above its flash point it will produce vapors sufficient to support combustion. Vapors are heavier than air and may travel along the ground and be ignited by heat, pilot lights, other flames and ignition sources at locations near the point of release.

Further information Carbon dioxide and carbon monoxide

6 - Accidental Release Measures

Personal precautions, protective equipment and emergency procedures

For personal protection see Section 8. Persons not wearing protective equipment should be excluded from area of spill until clean-up has been completed.

Environmental precautions

Prevent spreading over a wide area (e.g. by containment or oil barriers). Do not let product enter drains. Do not flush into surface water or sanitary sewer system.

Methods and materials for containment and cleaning up

Keep in suitable, closed containers for disposal. Soak up with inert absorbent material (e.g. sand, silica gel, acid binder, universal binder, sawdust).

7 - Handling and Storage

Precautions for safe handling

Containers of this material may be hazardous when emptied. Since emptied containers retain product residues (vapor, liquid, and/or solid), all hazard precautions give in the data sheet must be observed.

Conditions for safe storage, including any incompatibilities

Store in a cool, dry, ventilated area.

8 - Exposure Controls/Personal Protection

Appropriate engineering controls

These recommendations provide general guidance for handling this product. Personal protective equipment should be selected for individual applications and should consider factors which affect exposure potential, such as handling practices, chemical concentrations and ventilation. It is ultimately the responsibility of the employer to follow regulatory guidelines established by local authorities.

Individual protection measures, such as personal protective equipment (PPE)

Eye/face protection

Wear chemical splash goggles when there is the potential for exposure of the eyes to liquid, vapor or mist.

Skin protection

Wear normal work clothing including long pants, long-sleeved shirts and foot covering to prevent direct contact of the product with the skin. Launder clothing before reuse. If skin irritation develops, contact your facility health and safety professional or your local safety equipment supplier to determine the proper personal protective equipment for your use. Wear resistant gloves (consult your safety equipment supplier).

Respiratory protection

A NIOSH-approved air-purifying respirator with an appropriate cartridge and/or filter may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits (if applicable) or if overexposure has otherwise been determined. Protection provided by air-purifying respirators is limited. Use a positive pressure, air-supplied respirator if there is any potential for uncontrolled release, exposure levels are not known or any other circumstances where an air-purifying respirator may not provide adequate protection.

9 - Physical and Chemical Properties

Information on basic physical and chemical properties

Appearance/form (physical state, color, etc) Colorless liquid

Odor

Odor threshold

рΗ

Melting point/freezing point -83.00 F / -63.89 CInitial boiling point and boiling range 378.00 F / 192.22 C

Flash point

Evaporation rate

Flammability (solid, gas)

Upper/lower flammability limits

Vapor pressure

Vapor density

Relative density

Solubility(ies)

Partition coefficient: n-octanol/water

Auto-ignition temperature

Decomposition temperature

Viscosity

Explosive properties

Oxidizing properties

10 - Stability and Reactivity

Reactivity Stable
Chemical stability Stable

Conditions to avoid Exposure to sunlight, Exposure to moisture, Heating in air

Incompatible materials Isocyanates, strong acids, strong bases, strong oxidizing agents, UV light

Alcohols, aldehydes, carbon dioxide and carbon monoxide, dioxolanes, ethers, organic acids

Hazardous decomposition products

11 - Toxicological Information

Information on toxicological effects

Acute toxicity No data available

12 - Ecological Information

Toxicity Toxic to aquatic life

Persistence and degradability No data available

13 - Disposal Considerations

Disposal of the product

Dispose of in accordance with all applicable local, state and federal regulations.

14 - Transport Information

DOT (US)Not dangerous goodsIMDGNot dangerous goodsIATANot dangerous goods

15 - Regulatory Information

Safety, health and environmental regulations specific for the product in question
